

**Joint Information Center - JIC Recovery Release No. 65
June 23, 2023, 4:05 p.m. (ChST) JRR0623#65**

**RISEUP Last Day to Apply is June 30;
Dededo and Tiyan Disaster Debris Sites Closing July 3, Green Waste Site Updates**

RISEUP Temporary Roof Project:

The U.S. Department of Defense, U.S. Army Corps of Engineers, in coordination with the Office of the Governor, Guam Homeland Security/Office of Civil Defense, the Federal Emergency Management Agency (FEMA) and the Mayor's Council of Guam, continue the Roofing Installation Support Emergency Utilization Program (RISEUP) to help temporarily repair metal roofs damaged by Typhoon Mawar. To date, 73 roofs have been repaired through the RISEUP Program.

The last day to apply is Friday, June 30, 2023.

Guam residents who have damaged metal roofs can enroll for the program through their Mayor's office. There are three steps to sign up:

1. Guam residents contact their Mayor's office to apply.
2. Resident's roof damage is assessed for eligibility.
3. If eligible, a temporary metal roof is installed.

Emergency roof repair assistance is limited to pre-disaster owner-occupied residences. Repairs to commercial properties, including rental units are ineligible.

Additional Eligibility Criteria:

- Dwellings must have disaster-caused roof damage that impacts habitability.
- Dwellings must be otherwise structurally sound. Only dwellings that can be safely occupied after the roof repairs have been completed are eligible. Dwellings that are affected by disaster-caused utility outages are not disqualified based on utility outages alone.
- Approximately 50% of roof substructure (rafters/trusses) must remain, as determined by USACE.
- The damaged roof must cover indoor living space completely enclosed by walls. Living space includes facilities for cooking, eating, sleeping and sanitation. Outdoor kitchens with a damaged roof covering will qualify to the extent that it covers the dwelling's only means of cooking and storing food. Garages, carports, porches, etc. do not qualify.
- Repairs will only be performed on dwellings with pre-disaster metal roofs. Roofs composed of materials such as concrete, slate, asbestos or clay tile, or other material are not covered under this program.
- Homes unable to be assessed are not eligible. Accessibility is the responsibility of the resident and GovGuam.

Dededo and Tiyan Disaster Debris Closing July 3, Green Waste Site Updates:

The Typhoon Mawar disaster debris disposal sites located at the old transfer station in Dededo and the former Tiyan carnival grounds in Barrigada will discontinue operations and close on Monday, July 3, 2023.

The disaster debris disposal site located at Ypao Point in Tamuning will continue operations until Thursday, August 3, 2023 and will be open for residential use on weekdays from 4 p.m. to 6 p.m., and weekends from 9 a.m. to 6 p.m.
