**April 23, 2022, 10:55 a.m. (ChST)**

**Preliminary COVID-19 Test Results: 13 New Cases, 6 Hospitalized;  
 Adult Day Care and Senior Citizen Center Reopening;  
 Second COVID-19 Booster Doses Available;  
 Food Commodities Distribution Continues April 26**

**Preliminary COVID-19 Test Results: 13 New Cases Reported**

Today, the Department of Public Health and Social Services (DPHSS) reported a preliminary case count of **13** new cases of COVID-19 from **178** specimens analyzed on April 22, 2022. To date, there have been a total of **47,939** officially reported cases, **354** deaths, **221** cases in active isolation, and **47,364** not in active isolation.

**Six Hospitalized for COVID-19**

| CENSUS as of 10 a.m. | GMH | GRMC | USNH | TOTAL    |
|----------------------|-----|------|------|----------|
| COVID-19 Admission   | 1   | 5    | -    | <b>6</b> |
| Pediatric Admissions | 0   | -    | -    | <b>0</b> |
| ICU                  | 0   | 0    | -    | <b>0</b> |
| Ventilator           | 0   | 0    | -    | <b>0</b> |

| VACCINATION STATUS          | VACCINATED | UNVACCINATED | INELIGIBLE (0-4 years old) |
|-----------------------------|------------|--------------|----------------------------|
| Hospitalized                | 3          | 3            | 0                          |
| Total in Population*        | 136,294    | 5,313        | 12,229                     |
| Rate per 100,000 Population | 2          | 56           | 0                          |

*SPECIAL NOTE: Based on today's data, if we were to compare two (2) hypothetical populations of 100,000 people each, vaccinated versus unvaccinated, there would be 2 vaccinated people hospitalized for COVID-19 compared to 56 unvaccinated people hospitalized for COVID-19. The risk of being hospitalized for COVID-19 is about 28 times higher for the unvaccinated as compared to the vaccinated. \*Estimated population is based on DPHSS Immunization Program analysis of 2020 Census data. Updates are expected pending further Census 2020 data breakdown.*

**Adult Day Care and Senior Citizen Center Reopening**

DPHSS Division of Senior Citizens (DSC), in partnership with the Mayors' Council of Guam, will resume in-person Adult Day Care and Senior Citizens Center services on Monday, May 2, 2022.

Seniors receiving a Congregate (home-based) meal must contact their respective Adult Day Care Center or Senior Citizens Center to register to receive their Congregate meal at the Center, as Congregate meals will no longer be delivered or available for pick up on Monday, May 2, 2022. To receive a "Home-Delivered" meal, contact the Case Management Services program at (671) 647-5355 to schedule an assessment to determine eligibility for this "Home-Delivered" Meal Program.

In accordance with [Executive Order No. 2022-09](#), “Individuals who are not vaccinated or boosted are at an increased risk of infection, hospitalization, and death as a result of COVID-19. Such individuals are encouraged to get vaccinated immediately before engaging in activities in congregate settings where mask use is compromised.” To schedule and/or receive your COVID-19 vaccine or booster, please contact 311, Option 2, or Case Management Services Program at (671) 647-5355.

For additional information, call DSC at (671) 735-7415/7421 between 8 a.m. – 12 p.m. and 1 p.m. - 5 p.m., Monday through Friday, or email [Biba.SeniorCitizens@dphss.guam.gov](mailto:Biba.SeniorCitizens@dphss.guam.gov).

**Second COVID-19 Booster Doses Available**

Second doses of the COVID-19 booster are available to individuals ages 12 years and older who are moderately or severely immunocompromised. Eligible individuals may choose to receive a second booster dose using an mRNA (Pfizer-BioNTech or Moderna) COVID-19 vaccine at least 4 months after the first booster dose.

Additionally, adults between the ages of 18 and 49 who are not moderately or severely immunocompromised and who received Janssen COVID-19 Vaccine as both their primary series dose and booster dose may receive a second booster dose using an mRNA COVID-19 vaccine at least 4 months after the Janssen booster dose.

Adults ages 50 years and older could benefit from a second mRNA booster dose as they are at increased risk for severe COVID-19. Adults 50 years and older may choose to receive a second booster dose, if it has been at least 4 months after the first booster dose.
