**362nd COVID-19-related Fatality Reported;  
 Second Booster Dose Vaccination Clinics at Senior Citizens Centers Ongoing;  
 COVID-19 Test Results: 38 New Cases, Seven Hospitalized**

**362nd COVID-19-related Fatality Reported**

Today, the Joint Information Center was notified that Guam’s 362nd COVID-19-related fatality was pronounced dead on arrival at the Guam Regional Medical City on May 19, 2022. The patient was a 55-year-old male, fully vaccinated without a booster, with underlying health conditions, who tested positive on May 20.

“Jeff, Josh, and I pray for comfort for his friends and family as they grieve,” said Governor Lou Leon Guerrero. “While the island works diligently to move forward from the COVID-19 pandemic, we are reminded just how important it is to continue our individual mitigation efforts to help protect those that need it most. We can do this by strengthening our community with the second booster dose vaccine.”

**Second Booster Dose Vaccination Clinics at Senior Citizens Centers Ongoing**

The Department of Public Health and Social Services (DPHSS) Division of Senior Citizens (DSC), in partnership with the Mayors’ Council of Guam, is offering second doses of the COVID-19 booster to adults 50 years of age and older, or to individuals 12 years and older who are moderately to severely immunocompromised, at Senior Citizens Centers across the island. All eligible individuals are encouraged to get their second booster shots. **As a reminder, please bring your vaccination record card with you to the Senior Citizens Centers.** The schedule is below:

<b>DIVISION OF SENIOR CITIZENS BOOSTER DRIVE</b> FIRST, SECOND AND BOOSTER SHOTS AVAILABLE - Pfizer-BioNTech, Moderna, Johnson & Johnson	
<b>Thursday, May 26, 2022</b> 9:30 a.m. - 12:30 p.m.	<b>Mangilao Senior Citizens Center, Mangilao</b> Walk-ins are welcome. Please bring picture ID and <b>vaccination record card</b> . Curbside vaccination available for persons with disabilities.
<b>Friday, May 27, 2022</b> 9:30 a.m. - 12:30 p.m.	<b>Santa Rita Senior Citizens Center, Santa Rita</b> Walk-ins are welcome. Please bring picture ID and <b>vaccination record card</b> . Curbside vaccination available for persons with disabilities.

**COVID-19 Test Results: 38 New Cases Reported**

Today, DPHSS reported **38** new cases of COVID-19 from **772** specimens analyzed May 24, 2022. **Five** of the cases reported today are through the Department of Defense. To date, there have been a total of **48,865** officially reported cases, **362** deaths, **239** cases in active isolation, and **48,264** not in active isolation.

**Seven Hospitalized for COVID-19**

CENSUS as of 5 p.m.	GMH	GRMC	USNH	TOTAL
COVID-19 Admission	4	3	0	7
Pediatric Admissions	1	-	-	1
ICU	1	0	0	1
Ventilator	0	0	0	0

VACCINATION STATUS	VACCINATED	UNVACCINATED	INELIGIBLE (0-4 years old)
Hospitalized	5	1	1
Total in Population*	136,644	4,963	12,229
Rate per 100,000 Population	4	20	8

**SPECIAL NOTE:** Based on today's data, if we were to compare two (2) hypothetical populations of 100,000 people each, vaccinated versus unvaccinated, there would be 4 vaccinated people hospitalized for COVID-19 compared to 20 unvaccinated people hospitalized for COVID-19. The risk of being hospitalized for COVID-19 is about 5 times higher for the unvaccinated as compared to the vaccinated. \*Estimated population is based on DPHSS Immunization Program analysis of 2020 Census data. Updates are expected pending further Census 2020 data breakdown.

## Second COVID-19 Booster Doses Available

Second doses of the COVID-19 booster are available to individuals ages 12 years and older who are moderately or severely immunocompromised. Eligible individuals may choose to receive a second booster dose using an mRNA (Pfizer-BioNTech or Moderna) COVID-19 vaccine at least 4 months after the first booster dose.

Additionally, adults between the ages of 18 and 49 who are not moderately or severely immunocompromised and who received Janssen COVID-19 Vaccine as both their primary series dose and booster dose may receive a second booster dose using an mRNA COVID-19 vaccine at least 4 months after the Janssen booster dose. Adults ages 50 years and older could benefit from a second mRNA booster dose as they are at increased risk for severe COVID-19. Adults 50 years and older may choose to receive a second booster dose, if it has been at least 4 months after the first booster dose.
