**June 2, 2022, 5:20 p.m. (ChST)**

**364th COVID-19-related Fatality Reported;  
 Governor Leon Guerrero Signs Executive Order No. 2022-14;  
 COVID-19 Test Results: 106 New Cases, Seven Hospitalized;  
 Incentives Offered for COVID-19 Vaccination Series Completion and Boosters**

**364th COVID-19-related Fatality Reported**

Today, the Joint Information Center was notified that Guam’s 364th COVID-19-related fatality occurred at the Guam Regional Medical City on June 2, 2022. The patient was a 76-year-old male, vaccinated with one booster, with underlying health conditions, who tested positive on May 12.

“We are saddened to learn of continued loss and heartache in our community, and to his family and those who loved him, we extend our deepest condolences and sympathies,” said Governor Lou Leon Guerrero. “We are reminded that this virus remains a threat, and to those at highest risk, please reinforce the mitigation measures that helped us to progress through this pandemic. Get vaccinated and boosted if it’s your time and wear your mask, especially in large crowds.”

**Governor Leon Guerrero Signs Executive Order No. 2022-14**

Today, Governor Lou Leon Guerrero signed Executive Order No. 2022-14, relative to extending the public health emergency. Effective June 4, 2022, the public health emergency declaration is now scheduled to expire on July 4, 2022.

**Reduce the Risk of Exposure and Spread of COVID-19**

- **At-risk individuals and older adults should continue wearing face masks** in confined, poorly ventilated areas. Older adults and people with serious chronic medical conditions are most at risk for serious complications and death due to COVID-19. Serious chronic medical conditions include:

Heart disease	Obesity	Chronic liver disease
Diabetes	Immunocompromised conditions (e.g. cancer, lupus)	Neurologic/neurodevelopmental condition
Lung disease	Chronic renal disease	Current or former smoker

- **Get your COVID-19 booster doses** after the recommended time has lapsed from your vaccination series completion.
- **Look for emergency warning signs** for COVID-19 and call 911 if you have trouble breathing, persistent pain or pressure in the chest, new confusion, inability to wake or stay awake, or bluish lips or face. Individuals who are sick are advised to:
  - **Stay home, except to seek medical care.** Call ahead before visiting the clinic/doctor.

- **Monitor for symptoms** of COVID-19 including fever, cough, and shortness of breath, fatigue, body aches, headaches, loss of taste or smell, sore throat, congestion, nausea and/or diarrhea.
- **Get tested if you have symptoms** of COVID-19. While waiting for test results, you should stay away from others, including staying apart from those living in your household.
- **Report Positive COVID-19 At-home Test Results to DPHSS** at [dphss.surveillance@dphss.guam.gov](mailto:dphss.surveillance@dphss.guam.gov).
- **Isolate if you have tested positive for COVID-19.** While in isolation:
  - a. Eat in a separate room or area; use a separate bedroom; use a separate bathroom. If sharing a bathroom, clean and disinfect after each use.
  - b. Avoid sharing personal items – dishes, cups/glasses, silverware, towels, bedding or electronics (e.g., cellphone).
  - c. Wear a face mask.
  - d. Wash your hands often using soap and water, or hand sanitizer; avoid touching your eyes, nose, or mouth with unwashed hands.
  - e. Clean and disinfect “high touch” surfaces and items every day (tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks, and electronics)

### COVID-19 Test Results: 106 New Cases Reported

Today, the Department of Public Health and Social Services (DPHSS) reported **106** new cases of COVID-19 from **667** specimens analyzed June 1, 2022. **27** of the cases reported today are through the Department of Defense. To date, there have been a total of **49,262** officially reported cases, **364** deaths, **379** cases in active isolation, and **48,519** not in active isolation.

### Seven Hospitalized for COVID-19

CENSUS as of 5 p.m.	GMH	GRMC	USNH	TOTAL
COVID-19 Admission	1	5	1	7
Pediatric Admissions	0	-	-	0
ICU	0	0	0	0
Ventilator	0	0	0	0

VACCINATION STATUS	VACCINATED	UNVACCINATED	INELIGIBLE (0-4 years old)
Hospitalized	6	1	0
Total in Population*	137,004	4,603	12,229
Rate per 100,000 Population	4	22	0

**SPECIAL NOTE:** Based on today's data, if we were to compare two (2) hypothetical populations of 100,000 people each, vaccinated versus unvaccinated, there would be 4 vaccinated people hospitalized for COVID-19 compared to 22 unvaccinated people hospitalized for COVID-19. The risk of being hospitalized for COVID-19 is about 6 times higher for the unvaccinated as compared to the vaccinated. \*Estimated population is based on DPHSS Immunization Program analysis of 2020 Census data. Updates are expected pending further Census 2020 data breakdown.

### Incentives Offered for COVID-19 Vaccination Series Completion and Boosters

A program administered by the government of Guam is providing incentives to individuals 12 years of age and older who maintain their COVID-19 vaccinations who are:

- Completing their last dose in primary series; OR
- Receiving 1st Booster Dose; OR
- Receiving 2nd Booster Dose

Eligible residents may choose between IP&E gift certificates for \$25 gas at Shell Gas Stations OR \$25 at Shell Foody's Guam stores (alcohol and tobacco items excluded) while supplies last. **Gift certificates will only be offered at vaccination clinics at the Northern and Southern Region Community Health Centers, the Agana Shopping Center, and senior citizen outreach clinics.**

**Second COVID-19 Booster Doses Available**

Second doses of the COVID-19 booster are available to individuals ages 12 years and older who are moderately or severely immunocompromised. Eligible individuals may receive a second booster dose using an mRNA (Pfizer-BioNTech or Moderna) COVID-19 vaccine at least 4 months after the first booster dose.

Adults between the ages of 18 and 49 who are not moderately or severely immunocompromised and who received Janssen COVID-19 Vaccine as both their primary series dose and booster dose may receive a second booster dose using an mRNA COVID-19 vaccine at least 4 months after the Janssen booster dose. Adults ages 50 years and older could benefit from a second mRNA booster dose as they are at increased risk for severe COVID-19. Adults 50 years and older may receive a second booster dose, if it has been at least 4 months after the first booster dose.

<b>FREE COVID-19 VACCINATION CLINICS (AGES 5 AND OVER)</b> FIRST, SECOND AND BOOSTER SHOTS AVAILABLE - Pfizer-BioNTech, Moderna, Johnson & Johnson
