

Joint Information Center – JIC Release No. 1102
August 2, 2022, 5:15 p.m. (ChST)

381st COVID-19-related Fatality Reported;
COVID-19 Test Results: 123 New Cases, 25 Hospitalized; Additional COVID-19 Updates

381st COVID-19-related Fatality Reported

The Joint Information Center was notified that Guam’s 381st COVID-19-related fatality was pronounced dead on arrival at the Guam Memorial Hospital on August 1, 2022. The patient was a 96-year-old male, with no record of vaccination, with underlying health conditions, who tested positive on August 1.

“To his family and those who loved him, Jeff, Josh, and I extend our deepest sympathies and condolences,” said Governor Lou Leon Guerrero. “Losing another member of our community to this virus is a reminder that the pandemic is not yet over. We all must remember and exercise the basic mitigation measures to keep one another safe. Also, with summer drawing to a close and the school year starting, we encourage families and their children to stay up-to-date with their vaccinations and boosters.”

COVID-19 Test Results: 123 New Cases Reported

Today, the Department of Public Health and Social Services (DPHSS) reported **123** new cases of COVID-19 from **884** specimens collected August 1, 2022. **Twenty-two (22)** of the cases reported today are through the Department of Defense. To date, there have been a total of **55,624** officially reported cases, **381** deaths, **1,223** cases in active isolation, and **54,020** not in active isolation.

25 Hospitalized for COVID-19

CENSUS as of 5 p.m.	GMH	GRMC	USNH	TOTAL
COVID-19 Admission	15	8	2	25
Pediatric Admissions	0	-	-	0
ICU	3	0	1	4
Ventilator	1	0	1	2

VACCINATION STATUS	VACCINATED	UNVACCINATED	INELIGIBLE (Under 6 months old)
Hospitalized	17	8	0
Total in Population*	139,483	13,130	1,223
Rate per 100,000 Population	12	61	0

SPECIAL NOTE: Based on today’s data, if we were to compare two (2) hypothetical populations of 100,000 people each, vaccinated versus unvaccinated, there would be 12 vaccinated people hospitalized for COVID-19 compared to 61 unvaccinated people hospitalized for COVID-19. The risk of being hospitalized for COVID-19 is about 5 times higher for the unvaccinated as compared to the vaccinated. *Estimated population is based on DPHSS Immunization Program analysis of 2020 Census data. Updates are expected pending further Census 2020 data breakdown.

DPHSS mAb Treatment Center Open at Paseo Stadium

Bebtelovimab, a monoclonal antibody (mAb) for the treatment of mild-to-moderate COVID-19 in adults and pediatric patients (12 years of age and older weighing at least 40 kilograms) is available at the DPHSS mAb treatment center at the Paseo Stadium in Hagåtña from 9 a.m. to 4 p.m., and closes for lunch from 12 p.m. to 1 p.m., Monday through Saturday.

To schedule treatment at the DPHSS mAb treatment center, patients must call 671-998-4527 or 671-998-4547, have a current, laboratory confirmed COVID-19 infection and a referral from a prescribing physician. For more information about Bebtelovimab and other mAb treatment options on Guam, visit dphss.guam.gov/mab or dial 311 from a local number and select option 1 on weekdays from 8 a.m. to 9 p.m. and on weekends and holidays from 8 a.m. to 5 p.m.
