

Joint Information Center – JIC Release No. 1170
March 27, 2023, 5:10 p.m. (ChST)

Cumulative COVID-19 Test Results: 31 New Cases Reported Mar. 21–27;
Two Hospitalized; Additional COVID-19 Updates

Special Note: After March 27, 2023, Weekly Joint Information Center (JIC) releases, as they relate to COVID-19 results, will be discontinued. JIC releases will be issued only on an as needed basis. To view the most up to date COVID-19 information, including weekday surveillance summary reports, visit <http://dphss.guam.gov/covid-19/>

Report Positive COVID-19 At-home Test Results to DPHSS

Report positive COVID-19 at-home and over the counter (OTC) test results to the Department of Public Health and Social Services (DPHSS) via email: dphss.surveillance@dphss.guam.gov. You must report your positive result within 24 hours and provide the following information:

- Full Name
- Date of Test
- Contact Number
- Results
- Date of Birth
- Test Manufacturer

For more information, [CLICK HERE](#) or visit dphss.guam.gov/covid-19-testing/

Cumulative COVID-19 Test Results: 31 New Cases Reported March 21–27

Today, DPHSS reported **31** new cases of COVID-19 from **817** specimens analyzed from tests administered March 20–26, 2023:

- March 27: **1** of **17** tests positive for COVID-19
- March 26: **1** of **49** tests positive for COVID-19
- March 25: **4** of **135** test positive for COVID-19
- March 24: **10** of **112** test positive for COVID-19
- March 23: **7** of **170** test positive for COVID-19
- March 22: **7** of **204** test positive for COVID-19
- March 21: **1** of **130** tests positive for COVID-19

To date, there have been a total of **61,139** officially reported cases, **415** deaths, **43** cases in active isolation, and **60,681** not in active isolation.

Two Hospitalized for COVID-19

CENSUS as of 4 p.m.	GMH	GRMC	USNH	TOTAL
COVID-19 Admission	2	0	0	2
Pediatric Admissions	0	-	-	0
ICU	1	0	0	1
Ventilator	1	0	0	1

Treating COVID-19 with Oral Medications Available by Prescription

[Oral](#) treatments are available that can reduce your chances of being hospitalized or dying from the disease. Medications to treat COVID-19 must be prescribed by a healthcare provider and must be started within days of when you first develop symptoms to be effective. Paxlovid and Molnupiravir remain effective treatments against currently circulating variants and emerging variants. To receive the oral treatments, you must have either a current home test showing your positive test result for a COVID-19 infection or a current laboratory confirmed COVID-19 infection, and a referral from a prescribing physician. For more information, call 311 and select option 1 on weekdays from 8 a.m. to 9 p.m. and on weekends and holidays from 8 a.m. to 5 p.m. or call 671-998-4527 or 671-998-4547.

Get Rapid Test Kits Through USPS, Insurance

Every home in the U.S. can order four free at-home tests using COVIDtests.gov or 1-800-232-0233 (TTY 1-888-720-7489), while supplies last. USPS distributes free at-home COVID-19 tests, including tests that come with accessibility options for people who are blind or have low vision. These more accessible tests work with a smartphone app to provide audio instructions and audio test results. [Place your order for more accessible free tests online](#) or by calling 1-800-232-0233. Most people with a health plan can get an at-home over-the-counter COVID-19 test from a pharmacy. Check your health insurance for more information. As long as the test kit is authorized by the U.S. Food and Drug Administration (FDA), many insurance plans will cover the cost or reimburse you.

FREE COVID-19 COMMUNITY TESTING	
Fill out a COVID-19 Testing Patient Assessment Form ahead of time: dphss.guam.gov/covid-19-testing . Drive-through sites may close during lightning and inclement weather.	
Monday - Friday 9 a.m. by appointment	DPHSS Northern Region Community Health Center (NRCHC), Dededo By appointment only for individuals with COVID-like symptoms. Four adults per vehicle. Call 671-635-7525/6 to schedule an appointment. Bring a photo ID.
Tuesday & Thursday 9 a.m. - 12 p.m.	DPHSS Southern Region Community Health Center (SRCHC), Inalåhan By appointment only for individuals with COVID-like symptoms. Four adults per vehicle. Travel-related testing not offered. Call 671-828-7604/5/7518. Bring a photo ID.

Predeparture Travel COVID-19 Tests

The Northern Region Community Health Center in Dededo also offers COVID-19 testing for travel predeparture needs at a minimal cost of \$40 and is limited to 10 persons a day. Payments (cash or credit card) are accepted at the (Dededo) clinic cashier's window from Monday to Friday at 8 a.m. Payments will be required on the day of testing. Patients will need to bring a copy of their receipt as proof of payment, along with a valid ID and proceed to the testing site in the NRCHC front parking lot.

Travel Test Available	Cost	Turn-Around Time	Hours

Standard PCR Test	\$40	1-2 days	Monday – Friday 9 a.m.

Bivalent COVID-19 Vaccines and Boosters Available

Infants 6 months and older are eligible to receive the Moderna COVID-19 bivalent booster at all DPHSS vaccination clinics. DPHSS encourages residents of all ages to be up to date on their COVID-19 and flu vaccinations and boosters in order to protect their friends and family.

The Centers for Disease Control and Prevention (CDC) recommends getting an omicron-specific (bivalent) booster, which targets the original strain of the coronavirus as well as more recently circulating variants (BA.4 and BA.5). The original vaccines, called monovalent vaccines, will no longer be available as booster doses. Only the Moderna COVID-19 bivalent booster is available to infants 6 months and older, who completed their Moderna primary series.

The Pfizer COVID-19 bivalent vaccine is recommended for individuals 6 months to 4 years of age as the third dose to complete the primary series, at least two months since the second shot in their primary series. A booster dose is not authorized for children in this age group who already completed the Pfizer 3-dose primary series. The Pfizer bivalent booster is also available to individuals 5 years of age or older, regardless of which vaccine was taken for their primary series or monovalent booster as long as it has been at least two months since they have completed their primary vaccination series or since they have received the monovalent COVID-19 booster dose.

The Moderna COVID-19 bivalent vaccine is recommended for individuals 6 months to 5 years if they received the Moderna monovalent vaccine as their primary series and it has been at least two months since the last dose in their primary series. The Moderna bivalent booster is also available to individuals 6 years of age or older, regardless of which vaccine was taken for their primary series or booster as long as it has been at least two months since they have completed their primary vaccination series or since they have received the monovalent COVID-19 booster dose.

The updated Pfizer BioNTech bivalent vaccine and Moderna bivalent boosters are available at all DPHSS vaccination clinics at The Agana Shopping Center, NRCHC, SRCHC, and our extended outreach vaccination events.

Incentives Offered for COVID-19 Vaccination Series Completion and Bivalent Boosters

A CDC grant awarded to DPHSS titled “Guam's Initiative to Address COVID-19 Health Disparities (HDG)” is providing incentives to individuals who are completing their last dose in the primary series OR receiving their Bivalent Booster. Eligible residents will be offered a \$20 gift certificate (alcohol and tobacco items excluded), while supplies last. Gift certificates will be offered at all DPHSS vaccination sites, while supplies last.

Worksite Vaccinations Available Through DPHSS Health Disparities Grant Program

Organizations that would like to arrange COVID-19 vaccination at the worksite, the DPHSS Mobile Outreach Team is available 8 a.m. to 5 p.m. from Monday to Friday, excluding observed Government of Guam holidays. To schedule, please call 671-797-6059.

COVID-19 Vaccinations Available for Homebound Individuals by Calling 311, Option 2

For persons with disabilities and senior citizens, call 311 option 2 for information on vaccination sites and hours, and to arrange in-home vaccinations for homebound individuals.

Bivalent Boosters Available at DPHSS Vaccination Clinics

On October 12, 2022, the CDC’s Advisory Committee on Immunization Practices (ACIP)

recommended the use of new bivalent formulations of Pfizer-BioNTech and Moderna mRNA COVID-19 vaccines as a booster dose.

A single booster dose of bivalent Pfizer-BioNTech COVID-19 Vaccine or bivalent Moderna COVID-19 Vaccine may be given at least 2 months after completion of a monovalent primary series or any prior monovalent booster dose of COVID-19 vaccine. People must first complete at least a primary series with the original monovalent vaccine before receiving a single bivalent booster at least 2 months later.

- People may receive either brand of bivalent vaccine that is age-appropriate; there is no preference and no need to match the brand of the primary series.
- This recommendation is for a one-time booster. ACIP does not anticipate recommendations for frequent (e.g., every few months) booster doses of bivalent vaccine.
- COVID-19 vaccines may be co-administered with all other routinely recommended vaccines, including influenza vaccine.

The updated Pfizer BioNTech and Moderna bivalent boosters are available at the DPHSS vaccination clinics.

COVID-19 Vaccines for Children 6 Months and Older Available at all DPHSS Vaccination Clinics

The Moderna and the Pfizer-BioNTech COVID-19 Vaccines are authorized for use in children from six months of age and older. In most children, the Moderna COVID-19 vaccine for children ages six months through five years will be a two-dose primary series with four to eight weeks between dose one and dose two. In most children, the Pfizer-BioNTech COVID-19 vaccine for children ages six months through four years will be a three-dose primary series three to eight weeks between dose one and dose two, and at least eight weeks between dose two and dose three. Requirements for minors to receive the Moderna or Pfizer-BioNTech COVID-19 Vaccine at DPHSS vaccination clinics and outreach events:

- Parent/legal guardian must provide minor's birth certificate
- Parent/legal guardian must have a government-issued photo identification
- Minor must be accompanied by a parent or legal guardian
- Guardians must present legal guardianship or power-of-attorney documents

Guam COVID-19 Vaccination Update – As of March 27, 2023

As of March 27, 2023, **141,245** eligible residents (6 months and older) are fully vaccinated. This total includes **14,420** residents 12 – 17 years old. **9,484** residents 5 – 11 years old received their first dose of a two dose series. **7,825** residents 5 – 11 years old have completed their two-dose series. **419** residents 6 months – 5 years old have received their first dose of a two dose series. **82,987** eligible residents have received their first booster shots. **15,286** eligible residents have received their second booster shots.
