

**Joint Information Center - JIC Release No. 27**  
**May 25, 2023, 6:35 a.m. (ChST)**

**Guam Remains in COR 1;  
Governor Leon Guerrero and Lt. Governor Tenorio to Make Initial Assessment at First Light**

At first light, and when it is safe to do so, Governor Lou Leon Guerrero and Lt. Governor Josh Tenorio, along with partners from the Department of Public Works, Guam Homeland Security/Office of Civil Defense, and the Federal Emergency Management Agency (FEMA), will conduct a windshield assessment to gain visibility of any major damages or blocked roadways in the wake of Typhoon Mawar. As Guam received the full brunt of the typhoon overnight, the assessment will help determine what damages may have occurred.

**Tropical Storm Force Winds Continue on Guam:**

Current conditions will continue on Guam but are not expected to worsen. Sustained winds of 30 mph with gusts up to 55 mph will continue for the next two to three hours.

Residents are urged to stay off the roads and remain in safe, hardened shelters until Condition of Readiness (COR) 4 is declared.

**Flooding Remains Possible:**

A **flood watch** is in effect for Guam and Rota through this morning.
