**COVID-19-Related Fatalities Reviewed and Adjusted**

The Department of Public Health and Social Services (DPHSS) Chief Medical Officer and Territorial Epidemiologist, in coordination with the Acting Chief Medical Examiner, have been conducting a review of all possible COVID-19-related deaths. This coordinated review process has resulted in the classification of two additional deaths as COVID-19-related and has brought Guam's current COVID-19-related death count to 136.

The **135th** COVID-19-related fatality occurred on September 23, 2020. The patient was a 51-year-old female with underlying health conditions. She was admitted to the U.S. Naval Hospital (USNH) Guam on August 28, 2020, and tested positive upon admission.

The **136th** COVID-19-related fatality occurred on January 11, 2021. The patient was a 80-year-old female with underlying health conditions. She was admitted to the Guam Memorial Hospital (GMH) on November 29, 2020, and tested positive upon admission. The patient expired at home after being discharged from GMH.

"The passing of a loved one is never easy, but it can be especially difficult given the uncertainties still surrounding COVID-19. We hope these families find some comfort, and Jeff, Josh, and I send our deepest condolences and sympathies," said Governor Lou Leon Guerrero.

**Results: Two New Cases of COVID-19**

**Two (2)** new cases of COVID-19 were identified out of **347** tests performed on Thursday, April 1. **One (1)** case reported recent travel history and was identified in quarantine. To date, there have been a total of **7,812** officially reported cases of COVID-19 with **136** deaths, **27** cases in active isolation, and **7,649** not in active isolation.

**TODAY'S CAR SCORE<sup>1</sup>**

**0.2**

<sup>1</sup>The COVID Area Risk (CAR) Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. The ideal long-term goal is to sustain a CAR Score of 2.5 or less, which has been shown to correlate with very low to zero COVID-related hospitalizations and deaths.

The following tables provide COVID-19 test results from Thursday, April 1:

COVID-19 CASE COUNT	TOTAL	NEW CASES REPORTED TODAY	PAST 7 DAYS

Additionally, the [U.S. Food and Drug Administration's February 25, 2021 revision](#) of their Fact Sheet relative to the Pfizer-BioNTech Emergency Use Authorization now states, "After dilution, one vial contains six doses of 0.3 mL. Vial labels and cartons may state that after dilution, a vial contains five doses of 0.3 mL. The information in this [Fact Sheet](#) regarding the number of doses per vial after dilution supersedes the number of doses stated on vial labels and cartons." | <sup>^^</sup>Reflects the previous allocation total of 86,560 and last received an allocation of 1,300 Johnson & Johnson Janssen vaccines on March 8, 2021.

## GMH Modifies Emergency Room Visitation

Beginning Easter Sunday, April 4, 2021, one (1) designated family member or support person (visitor) may be authorized visitation in the Emergency Room (ER). To ensure quality and safe patient care, the following guidelines will be strictly enforced:

- One (1) designated visitor may be granted authorization to support patients in the ER.
- Authorized visitors must register at the 1st floor Security located in the front lobby to:
  - complete a questionnaire, temperature check and other safety requirements;
  - present valid photo identification in exchange of a visitor's badge;
  - wear the visitor's badge on his/her person at all times;
  - surrender the visitor's badge upon the patient's disposition (admission or discharge) in exchange for photo identification.
- Authorized visitors will be escorted by Security to the designated ER Waiting Area.
- Authorized visitors will be allotted 15-minutes of visitation at bedside every hour, at the top of the hour.
- The 15-minute allotment may be suspended at the discretion of the ED Physician or the Charge Nurse on duty.
- Exchanging of visitors is prohibited.
- One (1) parent or guardian is authorized to accompany a pediatric patient for the duration of his/her stay in the ER.
- Visitors must follow traffic enforcement and directions from Security personnel at all times.
- Visitation is prohibited for adult, ambulatory patients in the Urgent Care and Fast Track Area.

Visitors may contact GMH Security at 647-2319 for additional information about the visitation policy.
