### VAPPC Holds Virtual Meeting; Seven of 647 Test Positive for COVID-19; COVID-19 Vaccination Schedule; Food Commodities Distribution Continues

#### VAPPC Holds Virtual Meeting

During their virtual meeting on Monday, the Vaccine and Antiviral Prioritization Policy Committee (VAPPC) was updated on Guam's COVID-19 vaccine allotment for April. Over the weekend, Guam received a total of 53,170 doses of the COVID-19 vaccine. The Department of Public Health and Social Services' (DPHSS) Immunization Program received 25,740 doses of the Pfizer-BioNTech vaccines, 15,000 Moderna, and 1,300 Johnson & Johnson/Janssen (J&J/Janssen). Additionally, Guam's Northern Region Community Health Center received 5,850 Pfizer-BioNTech, 500 Moderna, 100 J&J/Janssen doses. The Southern Region Community Health Center also received a total of 4,680 Pfizer-BioNTech doses.

VAPPC members also discussed the latest developments with the Pfizer-BioNTech vaccine and trials with individuals 12-15 years of age. Discussions on expanding age eligibility, however, were tabled pending approval from both the U.S. Centers for Disease Control and Prevention (CDC) and the Food and Drug Administration (FDA).

#### Results: Seven New Cases of COVID-19

Seven (7) new cases of COVID-19 were identified out of 647 tests performed by DPHSS on Sunday, April 4, and tests from additional labs from Friday, April 2 to Sunday, April 4. Six (6) cases reported recent travel history and were identified in quarantine.

To date, there have been a total of 7,823 officially reported cases of COVID-19 with 136 deaths, 31 cases in active isolation, and 7,656 not in active isolation.

#### TODAY'S CAR SCORE<sup>1</sup>

0.2

<sup>1</sup>The COVID Area Risk (CAR) Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. The ideal long-term goal is to sustain a CAR Score of 2.5 or less, which has been shown to correlate with very low to zero COVID-related hospitalizations and deaths.

The following provides COVID-19 test results from additional labs for Friday, April 2 to Sunday, April 4:
