Pediatric COVID-19 Vaccines Arrive; Vaccinations for Children Ages 5-11 to Begin Tuesday

The Guam Department of Public Health and Social Services (DPHSS) received the much-anticipated shipment of 7,500 doses of the Pfizer-BioNTech COVID-19 pediatric vaccines. DPHSS continues to collaborate with key stakeholders, such as the Guam Department of Education (GDOE), Catholic, charter and private schools to plan for and schedule school-based immunization of the pediatric COVID-19 vaccine. DPHSS continues to communicate with enrolled providers to plan for expansion of vaccinations to pediatric populations.
