DLAN Emergency Management System Operational

Agana Heights, Guam – The DisasterLAN (DLAN) emergency management system has been restored as of March 28, 2025 and is now accessible by emergency managers. The loss of service from March 17 - March 28, 2025 had no impact to operations.

DLAN is a secure, web-based, mobile friendly emergency management system that provides tools for shared situational awareness, workflow-based information management, and real-time communication to help prepare for, respond to, and report on issues.
