Flash Flood Warning Now in Effect, Practice Caution

The National Weather Service (NWS) Weather Forecast Office Guam issued a **flash flood warning** now in effect for Guam until 9:15 a.m. this morning. Between 1 and 3 inches of rain have fallen. Additional rainfall amounts of 2 to 4 inches are possible. Flash flooding is ongoing or expected to begin shortly.

The community is advised to take the following actions:

- If driving, be alert for low visibilities in heavy rain;
- Slow down where water is ponding on the road;
- Turn Around, Don't Drown. Avoid walking or driving through flood waters. Just 6 inches of moving water can knock you down, and 2 feet of water can sweep your vehicle away;
- Do not camp, park, or hike along streams and rivers. These areas can flood quickly and with little warning.

The Office of Homeland Security and the Office of Civil Defense (OHS-OCD) remind the community to practice caution while traveling in heavy rain, driving below the speed limit and allowing enough braking distance between vehicles.
