Flood Advisory in Effect for Guam; Practice Caution

The National Weather Service (NWS) Guam Weather Forecast Office issued a **flood advisory**, in effect for Guam until 5:45 p.m. this afternoon. Between 0.4 and 1 inch of rain has fallen. Additional rainfall of 1 to 2 inches are possible through 6:45 p.m.

A **flood watch** remains in effect for Guam and Rota through Friday night. Flooding caused by excessive rainfall continues to be possible. Rainfall of 3 to 5 inches is possible over Guam and Rota through Friday afternoon.

The community is advised to take the following precautionary actions:

- If driving, be alert for low visibilities in heavy rain;
- Slow down where water is ponding on the road;
- Turn Around, Don't Drown. Avoid walking or driving through flood waters. Just 6 inches of moving water can knock you down, and 2 feet of water can sweep your vehicle away;
- Do not camp, park, or hike along streams and rivers. These areas can flood quickly and with little warning.

The Office of Homeland Security and the Office of Civil Defense (OHS-OCD) remind the community to practice caution while traveling in heavy rain, driving below the speed limit and allowing enough braking distance between vehicles.
