### **Flood Advisory in Effect for Guam; Practice Caution on the Roadways**

The National Weather Service (NWS) Guam Weather Forecast Office issued a **flood advisory** for Guam, in effect until 8 a.m. this morning. Urban and small stream flooding caused by excessive rainfall is expected. Between 0.2 and 0.6 inches of rain has fallen. Additional rainfall amounts of 1.5 to 2.5 inches are expected, resulting in minor flooding.

Some locations that will experience impact include Dededo, Tamuning, Yigo, Mangilao, Chalan Pago-Ordot, Barrigada, Yona, Hagatna Heights, Andersen AFB, Talofofo, Mongmong-Toto-Maite, Sinajana, Inarajan, Asan, Merizo, Piti, Santa Rita, and Umatac.

Residents and visitors are advised to take the following precautionary actions:

- If driving, be alert for low visibilities and slippery roads in heavy rain;
- Slow down where water is ponding on the road;
- Turn Around, Don't Drown. Avoid walking or driving through flood waters. Just 6 inches of moving water can knock you down, and 2 feet of water can sweep your vehicle away;
- Do not camp, park, or hike along streams, rivers, and creeks during heavy rainfall. These areas can flood quickly and with little warning.

The Offices of Guam Homeland Security and Civil Defense (GHS/OCD) advise the community to practice caution while traveling in rainy conditions, driving below the speed limit and allowing enough braking distance between vehicles.
