August 16, 2023, 3:45 p.m. (ChST)

### Flood Advisory in Effect; Practice Caution in Heavy Rain

The National Weather Service (NWS) Guam Weather Forecast Office issued a **flood advisory**, in effect for west central Guam until 5:30 p.m. this afternoon. Urban and small stream flooding caused by excessive rainfall is expected. Between 0.5 and 1 inch of rain has already fallen. Additional rainfall amounts up to 1 inch is expected, resulting in minor flooding.

Some locations that will experience flooding include Yona, Talofofo, Asan, Merizo, Piti, Agat, and Sant Rita.

Residents and visitors are advised to take the following precautionary actions:

- If driving, be alert for low visibilities and slippery roads in heavy rain;
- Slow down where water is ponding on the road;
- Turn Around, Don't Drown. Avoid walking or driving through flood waters. Just 6 inches of moving water can knock you down, and 2 feet of water can sweep your vehicle away;
- Do not camp, park, or hike along streams, and rivers during heavy rainfall. These areas can flood quickly and with little warning.

The Offices of Guam Homeland Security and Civil Defense (GHS/OCD) advise the community to practice caution while traveling in rainy conditions, driving below the speed limit and allowing enough braking distance between vehicles.
